(a) Employees in the defence forces, at home or abroad, and Government "relief" workers are excluded. From July, 1941, estimated total employment is based on Pay-roll Tax returns and records of Government employment.

(b) Includes employees of Australian Government authorities (Commonwealth, State and Local) and of Allied Governments.

(c) From July, 1945, monthly figures are estimates subject to revision.

(d) Department of Works and Housing, formerly Allied Works Council.

(e) Includes Education, Health, Hotels and Restaurants, Professional and Personal Services (except female private domestic).

(a) Includes Government munitions and aircraft establishments and naval dockyards, also major aircraft and shipbuilding contractors, but excludes other private factories, of which large numbers undertook war contracts. (b) Includes railway and tramway workshops, electricity and other Governmental institutions not included in previous column. (c) From July, 1945, monthly figures are estimates, subject to revision. (d) Shipbuilding contractors since January, 1946, have been transferred to other factories.

RETAIL STORES EMPLOYMENT INDEX.

Compiled from numbers of employees on the last pay-roll of each month shown on pay-roll tax returns of taxable employers whose principal activity was retail trade.

Month.	New South Wales.	Victoria.	Queens- land.	South Australia.	Western Australia.	Tasmania.	Australia (Six States).

(a) Includes Australian Capital Territory.

(b) Includes Northern Territory.

(c) Includes Gas, Water and Electricity Supply.

(d) Refers to first placement of a discharged person. Actual date of commencing work may be some weeks later.

(e) Refers to persons for whom notification of placement has not been received within two weeks of the end of the month of discharge.

The majority of these are subsequently placed in industry. (f) Includes persons totally disabled, retirements (including females going to unpaid home duties), etc.

TRADE UNION UNEMPLOYMENT RETURNS.

The only regular records of unemployment available in comparable form over a considerable period are the quarterly percentages reported by trade unions to the Commonwealth Statistician. The membership of the reporting unions consists predominantly of males, and represents at present about 56 per cent. of the total trade union membership and between 20 and 25 per cent. of all wage and salary earners. For some States the returns are a more representative sample than for others. This table, therefore, should not be read as indicating the relative degree of unemployment amongst unionists in the individual States but as an indication of trend of unemployment as reported by secretaries of trade unions.

EXPORT PRICE INDEX.

These index-numbers are compiled from the prices of 20 commodities which constitute about 85 per cent. of all exports. The prices are multiplied by the average quantities exported during a fairly recent and representative period.

(Base : Average 3 years ended June, 1939 = 1,000.)

EXPORT PRICE INDEX (CHANGING BASE).

The index-numbers in the table above, while they indicate satisfactorily the general trend of the market, take no account of the relative quantities actually sold at the different prices ruling during each month. In consequence the index-numbers do not give an adequate indication of the significance of the price movements as they actually affected current sales. This is shown more accurately by the index-numbers (including gold) in the following table, in the computation of which the "quantity-multipliers" are changed each month. The index-numbers are designed solely for comparisons of current prices with those of the corresponding months, or periods of months, of the preceding year.

(Base : Weighted Average Price Level in corresponding months of preceding year = 1,000.)

PRIMARY PRODUCTION PRICE INDEXES.

The annual index-numbers in the following table have been recomputed to the base average 3 years ended June, 1939 = 1,000 from the revised series published in *Production Bulletin* No. 36, Part II. They are based in general on prices realized in the principal markets of Australia.

The monthly index-numbers (based on the nearest equivalent wholesale price quotations) are intended progressively to forecast the point which the annual index-numbers will eventually reach, and so provide a preliminary figure for the latest full year pending the completion of the annual census of production. The preliminary index-numbers will be revised as each production census is completed.

(Base : Average 3 years ended June, 1939 = 1,000.)

WHOLESALE PRICE INDEX.

BASIC MATERIALS AND FOODSTUFFS.

The construction of this new index has been made possible by the collection of new data on prices and consumption. Both in contents and method of computation it differs from the Melbourne Index of General Wholesale Prices. The price quotations have in the main been obtained directly from manufacturers and dealers, and, with a few important exceptions, from Melbourne sources. Apart from home-produced building materials, coal and one or two minor commodities, however, the price movements may be taken as representative of fluctuations in wholesale prices of basic materials in most Australian markets. The weighting system adopted is based on average annual consumption during the years 1928-29 to 1934-35 inclusive.

(Base : Average 3 years ended June, 1939 = 1,000.)

(a) Year ended December following.

RETAIL PRICE AND WAGE-RATE INDEXES.

In the tables on this and the following page the index-numbers have been recomputed uniformly to the base average 3 years ended June, 1939 = 1,000 in order to facilitate comparisons with other data. The absolute index-numbers differ, in consequence, from those appearing in other publications of the Bureau.

(Base : Average 3 years ended June, 1939 = 1,000.)

(a) Compiled by the New South Wales Government Statistician. The index-numbers are based on the prices of the ordinary shares of companies (excluding banking companies) whose business is conducted wholly or largely in New South Wales. They represent unweighted averages of the mean monthly prices per £ of paid-up capital. Adjustments are made where capital is written off or bonus shares issued. Recomputed from original base, par values.

July	1,273	1,160	995	974	1,416	1,151	1,295

(a) See note (a) on page 20. These 34 shares relate to leading companies and do not include bank shares or mining shares. (b) Compiled by the Stock Exchange of Melbourne. The index-numbers of bank shares and silverlead shares represent averages (weighted by paid-up capital, with adjustment in the case of bank shares) of the mean monthly prices on the Melbourne Stock Exchange. The preference share index-numbers are based on the reciprocals of average yields. Recomputed from original base, May, 1926. (c) Compiled by the Queensland Bureau of Industry. The index-numbers are based on the prices of the ordinary shares of 21 representative Queensland companies, and the preference shares of three companies whose ordinary shares are inactive. The index-numbers represent unweighted averages. End-of-month values were used until December, 1930, and mean monthly values thereafter. Recomputed from original base, April, 1928.

SUMMARY OF PRICE INDEXES.

NOTE.—The National Security (Building Control) Regulations, which operated on 5th December, 1940, placed the granting of building permits for new buildings or alterations costing more than £5,000 under the control of the Commonwealth Treasurer. Various amending regulations made the control more stringent. On 19th June, 1942, the control passed to the Department for War Organization of Industry, after which date only alterations costing less than £25 could be made without consent. From 31st August, 1945, when control passed to the Department of Works and Housing, consent was not necessary for the erection of a dwelling house costing less than £1,200 or for repairs and alterations to a residential building costing less than £150 in any financial year. As from November 1st, 1945, the Commonwealth Government relinquished control over building permits and delegated its powers under National Security Regulations to the States until State legislation had been introduced. This action has already been taken in all States except New South Wales and Tasmania.

The "value of permits" shown above relates to the value of building permits issued by local government authorities and not to approvals granted under the Regulations.

The values shown exclude, in general, air raid shelters and alterations for protection against air raids.

MAINLAND STATE RAILWAYS: FREIGHT, PASSENGERS AND REVENUE.

The following table shows statistics of freight and passengers carried and of revenue earned on the five Mainland State Railways.

The daily average number of passenger-journeys is obtained by dividing the monthly totals by the *total* number of days in the month.

Period.	Freight Carried.		Passenger-Journeys.	Gross Revenue.	Net Revenue.
	Net Ton Miles.	Average haul per ton.			
	Daily Average. '000.	Miles.	Daily Average. '000.	Per Month. £'000.	Per Month. £'000.

(a) Excludes cargo from vessels engaged exclusively in the transport of troops, war equipment and supplies.

WHOLESALE TRADE.

An indication of fluctuations in the value of wholesale trade is given by the returns made under the Sales Tax Acts. The returns do not relate to all wholesale trade, nor do they necessarily cover a constant proportion of all trade. The effects of legislation and administrative changes on the recorded values of taxable and exempt goods respectively are somewhat uncertain, but total recorded sales are affected in smaller degree. Insufficient information is available to enable adjustments to be made to the crude figures on this account, but endeavour is being made to obtain data that will permit approximate adjustments. Monthly totals are compiled on a basis comparable with the monthly averages for preceding years.

An index of activity in New South Wales is afforded by monthly returns of the sales of 42 large factories.

						Monthly Totals. Partly Estimated.			

(a) The rates of tax per cent. were 2½ as from 1.8.30; 6 from 11.7.31; 5 from 26.10.33; 4 from 11.9.36; 5 from 22.9.38; 6 from 9.9.39; 8½ from 3.5.40; 5, 10 and 15 on different classes of goods from 22.11.40; 5, 10 and 20 from 30.10.41; 12½ and 25 from 1.5.42. From 21.7.43, rationed clothing, &c., was reduced to 7½ per cent. From 13.9.45 and 10.4.46 there were other reductions. With certain specified exemptions, all goods sold in Australia, including imports, are taxable. The list of exemptions was extended as from 11.7.31; 2.9.32; 11.11.32; 27.10.33; 1.8.34; 13.12.34; 25.10.35; 26.9.36; 13.12.38; 26.9.39; 13.9.45; 10.4.46; and restricted as from 3.6.40; 22.11.40; 30.10.41. As from 1.5.42; 3.7.43; 21.7.43; 8.9.44; and 10.4.46, there was a partial restoration of former exemptions.

(b) Net sales under Sales Tax Acts subject to revision.

(c) Not yet available.

RETAIL TRADE.

Statistics of retail sales are collected in three States but are available for publication in only two, namely, New South Wales and Queensland. In New South Wales the Retail Traders Association Research Bureau, in co-operation with the Commonwealth Bank, collects returns from a number of large Sydney stores. In Queensland, returns are collected by the Bureau of Industry from twelve large department stores in Brisbane and their branches in country towns. Because of the relatively rapid development of chain store business, it is uncertain to what extent the department store figures are representative of all retail trade.

(a) Compiled from returns lodged under *Banking Act 1945*. Average of four of five weeks ended on last Monday in month.
(b) Includes Rural Department of Rural and Industries Bank of Western Australia.

BANK CLEARINGS.

In the absence of statistics of debits to customers' accounts, bank clearings form a useful index of the money-value of cheque payments. Since they do not include cheques deposited in the banks on which they are drawn, the figures are not exhaustive, and their comparability is sometimes impaired by the effects of banking amalgamations. Cheque clearings connected with the redemption or issue of Treasury Bills have been excluded from the following table, but adjustments have not been made for other sporadic transactions concerned with public finance. Statistics of debits to customers' accounts from September, 1945 are shown on page 35.

Period.	Sydney.	Melbourne.	Brisbane.	Adelaide.	Perth.	Hobart.	Six Capitals.
